

City Issues Bid for '60 Parley Here

Rockville, The All America City, this week invited the Maryland Municipal League to hold its 1960 Fall convention in the county seat.

Rockville city fathers hope by that time to be well into the city's celebration of its 100th birthday of incorporation.

At the same time, initial phases of construction of the Civic Center auditorium should be done then. The Mayor and Council hope that the auditorium and Civic Center, the new water filtration plant, and other new municipal facilities will prove a draw to the conventioners.

Housing might prove a worry. There are only two or three motels close enough to the city to really convenient, probably providing less than 200 accommodations at one time.

Nevertheless, the invitation, one of three resolutions passed at Tuesday's conference session of the Mayor and City Council, went out.

The other two resolutions were (1) one that urged the Maryland Municipal League to study possibility of permitting payment of municipal statutory boards (Planning Commission, Board of Appeals); and (2) another asking action of the MML to give municipalities authority to govern speed of trains through cities.
